A Maggot is John Fowles' best work. I have a tendency to review my favorite novel of an author and sometimes to comment in passing on his or her other works, simply because to review them all is too much work. The story is about a group of travelers on the road on horseback in the early English seventeen hundreds, from London to Bristol.

Fowles calls his new novel, which basically is homage to the philosophical underpinnings of Shakerism and to the moral narratives of Defoe, "a maggot": a 17th-century-style working-out of an obsessive theme. In length and relative linearity, the book is just that.

In the spring of 1736 four men and one woman, all traveling under assumed names, are crossing the Devonshire countryside en route to a mysterious rendezvous. Before their journey ends, one of them will be hanged, one will vanish, and the others will face a murder trial. Out of the truths and lies that envelop these events, John Fowles has created a novel that is at once a tale of erotic obsession, an exploration of the conflict between reason and superstition, an astonishing act of literary legerdemain, and the story of the birth of a new faith.

In his prologue, John Fowles tells us that A Maggot began as a vision he had of five travellers riding with mysterious purpose through remote countryside. This image gives way to another - a hanging corpse with violets stuffed in its mouth - which leads us into a maze of beguiling paths and wrong turnings, disappearances and revelations, unaccountable motives and cryptic deeds, as this compelling mystery swerves towards a startling vision at its centre.

A new trade paperback edition of "a masterpiece of symbolically charged realism...Fowles is the only writer in English who has the power, range, knowledge, and wisdom of a Tolstoy or James" (John Gardner, Saturday Review). The eponymous hero of John Fowles's largest and richest novel is an English playwright turned Hollywood screenwriter who has begun to question his own values. Summoned home to England to visit an ailing friend, Daniel Martin finds himself back in the company of people who once knew him well, forced to confront his buried past, and propelled toward a journey of self-discovery through which he ultimately creates for himself a more satisfying existence. A brilliantly imagined novel infused with a profound understanding of human nature, Daniel Martin is John Fowles at the height of his literary powers.

In Mantissa (1982), a novelist awakes in the hospital with amnesia -- and comes to believe that a beautiful female doctor is, in fact, his muse.

The Ebony Tower, comprising a novella, three stories, and a translation of a medieval French tale, echoes themes from John Fowles's internationally celebrated novels as it probes the fitful relations between love and hate, pleasure and pain, fantasy and reality.

The Magus is the story of Nicholas Urfe, a young Englishman who accepts a teaching assignment on a remote Greek island. There his friendship with a local millionaire evolves into a deadly game, one in which reality and fantasy are deliberately manipulated, and Nicholas must fight for his sanity and his very survival.

This incisive and skillfully articulated study explores the complex power relationships in John Fowles's fictions, particularly his handling of the pivotal subjects of art and sex. Chapters on The Collector, The Magus, The French Lieutenant's Woman, and The Ebony Tower are included, and a final chapter discusses Daniel Martin, Mantissa, and A Maggot.

This book presents a deconstructive reading of the novels and short stories of John Fowles. As a contemporary novelist, Fowles began as a modernist self-consciously aware of the various narratological problems that he encountered throughout his writings. In his most recent novel, A Maggot, however, he assumes the role of the postmodernist who not only subverts the tradition of narratology, but also poses a series of problems concerning history and politics. Throughout this study, Mahmoud Salami attempts to locate Fowles's fiction in the context of modern critical theory and narrative poetics. He provides a lively analysis of the ways in which Fowles deliberately deployed realistic historical narrative in order to subvert them from within the very conventions they seek to transgress, and he examines these subversive techniques and the challenges they pose to the tradition of narratology. Salami presents, for instance, a critique of the self-conscious narrative of the diary form in The Collector; the intertextual relations of the multiplicity of voices, the problems of subjectivity, the reader's position, the politics of seduction, ideology, and history in The Magus and The French Lieutenant's Woman. The book also analyzes the ways in which Fowles uses and abuses the short-story genre, in which enigmas remain enigmatic and the author disappears to leave the characters free to construct their own texts. Salami centers, for example, on A Maggot, which embodies the postmodernist technique of dialogical narrative, the problem of narrativization of history, and the explicitly political critique of both past and present in terms of social and religious dissent. These political questions are also echoed in Fowles's nonfictional book The Aristeo, in which he strongly rejects the totalization of narratives and the materialization of society. Indeed, Fowles emerges as a postmodernist novelist committed to the underprivileged, to social democracy, and to literary pluralism. This study clearly illustrates the fact that Fowles is a poststructuralist--let alone a postmodernist--in many ways: in his treatment of narratives, in mixing history with narrative fiction and philosophy, and in his appeal for freedom and for social and literary pluralism. It significantly contributes to a better understanding of Fowles's problematical narratives, which can only be properly understood if treated within the fields of modern critical theory, narratology, and the poetics of postmodernism.
