The Business Briefings series offers authoritative introductory textbooks in core business topics. Covering the basics and providing springboards to further study, the books take a no-nonsense, practical approach, and are ideal as accessible introductions or as revision guides. This book covers the essentials of financial accounting, providing students with a clear and succinct overview of the topic. It has been carefully developed to cover the key subjects including double-entry bookkeeping, accounting regulations, and the preparation and analysis of financial statements. This is an ideal

Study Text
Guide for students coming to the subject for the first time, or for those seeking a quick refresher. Key benefits: • Concise yet authoritative • Ideal as an introduction or revision guide • Includes answers to revision questions

The Global Accounting History four volume set aims to establish a benchmark reference source that covers the evolution of accounting, financial reporting and related institutions for all major economies in the world in a comparable way. Volume Three considers six nations from Asia and Oceania, including Australia, China, India, Indonesia, Japan, and the Republic of Korea. The volume is informed by the knowledge of various regional specialists, who act as authors for each chapter.

This highly regarded reference is relied on by a considerable part of the accounting profession in their day-to-day work. This comprehensive resource is widely recognized and relied on as a single reference source that provides answers to all reasonable questions on accounting and financial reporting asked by accountants, auditors, bankers, lawyers, financial analysts, and other preparers and users of accounting information. The new edition reflects the new FASB Codification, and includes expanded coverage of fair value and guidance on developing fair value estimates, fraud risk and exposure, healthcare, and IFRS.
