Apologetics is about giving a defense (or answer) for faith. Reading the back of this book before I bought it, I wondered why it was published by IVP Academic instead of just IVP, since I assumed it was another book of apologetic arguments or defenses for faith. It might better be seen as a defense for defenders.

"Look carefully. Listen closely. Do you see? Do you hear? There are a million signposts pointing toward the specific truth of God in Christ. I've seen many of them. But God is speaking to you too. Look and see. Listen and hear." In this accessible and engaging work, veteran apologist Jim Sire gives us eyes to see the myriad "signals of transcendence" all around us that point to the specific ...

4 Reasons Why You Are Seeing 2:22. Angels and spirit guides often choose to share their messages through repetitive number patterns. It is impossible for them to communicate like humans do, so they resort to using numbers to tell you divine messages. If you just see a specific number pattern once, it could be just a coincidence.

Here are five reasons why science and faith are compatible. 1. Scientists cannot escape the question of God. The story of science and faith is much more complicated than we have been told. Some of the most outspoken atheists or skeptics have painted a simplistic picture, one that is not scientific. The truth is much more interesting.
