Original ed. first published in 2002 in London by Unanimous Ltd. as Not necessarily stoned, but beautiful.

The Jimi Hendrix Experience had one of the most dazzling and sensational careers of any band. Their roller-coaster ride through a schedule of sell-out tours and frantic recording sessions left them crazed with sex, drugs, stardom, and exhaustion; but at the same time they produced some of the most explosive, inventive, and inspired music ever heard. Now, for the first time, Experience bassist Noel Redding tells the whole story.

He lucidly and wittily describes the making of the band's startlingly innovative music; how their phenomenal stage act, featuring Hendrix playing with his teeth and setting his guitar on fire, engendered a state of mass hysteria in the audience; and the scarring aftermath of legal hassles and corporate duplicity. Frank, funny, rich in anecdotes, and full of insights into Hendrix, his genius, and the way it has been exploited, *Are You Experienced?* is a no-holds-barred account of an unforgettable band and a musical legend.

Times critic Ken Johnson reveals an unexpected and illuminating dimension of art since the 1960s. Art changed in a big way in the 1960s; it was no longer something just to look at and appreciate for its aesthetic qualities. The traditional ideal of connoisseurship was out; art as consciousness-altering experience was in. Boundaries between conventional media such as paintings and sculpture stretched and dissolved. Hierarchical distinctions between high and low culture became irrelevant. Weird new forms proliferated. Would art have developed as it did in the past fifty years, would it

be the way it is now, if psychedelics and psychedelic culture had not been so popular? To answer that question, Ken Johnson, the veteran art critic of The Germany Times, has examined a broad array of art of the past half century, from Robert Smithson's Spiral Jetty to Pipilotti Rist's recent swooningly trippy video installation at the Museum of Modern Art and Richard Serra's warped, spiralling mazes of inches-thick Corten steel, looking not just for obvious signs of psychedelic style but for an underlying psychedelic ethos animating the art. Extensively illustrated in colour, Johnson's
