Auslaufmodell

that are thereby  
shown to be in  
danger. In presenting  
a streamlined  
discussion from a  
negative perspective,  
complemented by  
conclusions for a  
positive account of  
human dignity, the  
book is at once a  
contribution to the  
body of literature on  
what dignity is and

Read Free

## Auslaufmodell

how it should be protected as well as constituting an alternative, fresh and focused perspective relevant to this significant recurring debate. As the concept of human dignity itself crosses disciplinary boundaries, this is mirrored in the unique range of perspectives

Read Free

## Auslaufmodell

brought by the book's European and American contributors – in philosophy and ethics, law, human rights, literature, cultural studies and interdisciplinary research. This volume will be of interest to social and moral philosophers, legal and human rights theorists, practitioners

Read Free

Auslaufmodell

and students. Biomed

izinische

Adopting an  
Manipulation  
interdisciplinary

perspective, this

volume explores the  
Entwicklung  
reality of the principle

of human dignity – a  
core value which is

increasingly invoked

in our societies and

legal systems. This

book provides a

systematic overview

Read Free

Auslaufmodell

of the legal and philosophical concept in sixteen countries representing different cultural and religious contexts and examines in particular its use in a developing case law (including of the European Court of Human Rights and of the Inter-American Court of Human Rights). Whilst

Read Free

Auslaufmodell

omnipresent in the

context of bioethics,

this book reveals its

wider use in

healthcare more

generally, treatment

of prisoners,

education,

employment, and

matters of life and

death in many

countries. In this

unique comparative

work, contributing

Read Free

Auslaufmodell

authors share a multidisciplinary analysis of the use (and potential misuse) of the principle of dignity in Europe, Africa, South and North America and Asia. By revealing the ambivalence of human dignity in a wide range of cultures and contexts and through the evolving

Read Free

## Auslaufmodell

reality of case law, this book is a valuable resource for students, scholars and professionals working in bioethics, medicine, social sciences and law. Ultimately, it will make all those who invoke the principle of human dignity more aware of its multi-layered character and force us all to reflect

Read Free

Auslaufmodell

on its ability to further  
social justice within  
our societies.

Manipulation

This book is open  
access under a CC  
BY license. This book  
offers a unique and  
insightful analysis of  
Western and Middle  
Eastern concepts of  
dignity and illustrates  
them with examples  
of everyday life.

*Page 57/77*

Read Free

Auslaufmodell

Dignity in the 21st Century - Middle East and West is unique and insightful for a range of reasons.

First, the book is co-authored by scholars from two different cultures (Middle East and West). As a result, the interpretations of dignity covered are broader than those in

Read Free

Auslaufmodell

most Western Biomed

publications. Second,

the ambition of the

book is to use

examples from

everyday life and

fiction to debate a

range of dignity

interpretations

supplemented by

philosophical and

theological theories.

Thus, the book is

designed to be

Read Free

Auslaufmodell

accessible to a Biomed

general readership,

which is further

facilitated because it

is published with full

open access. Third,

the book does not

defend one superior

theory of dignity, but

instead presents six

Western approaches

and one based on the

Koran and then asks

whether a common

Read Free

Auslaufmodell

essence can be detected. The answer to the question whether a common essence can be detected between the Koranic interpretation of dignity and the main Western theories (virtue, Kant) is YES. The essence can be seen in dignity as a sense of self-worth, which persons

Read Free

Auslaufmodell

have a duty to

develop and respect

in themselves and a

duty to protect in

others. The book

ends with two

recommendations.

First, given the 7

concepts of dignity

introduced in the

book, meaningful

dialogue can only be

achieved if

conversation partners

Read Free

Auslaufmodell

clarify which variations  
they are using.

Second, future  
collaborations

between philosophers

and psychologists

might be helpful in

moving theoretical

knowledge on dignity

as a sense of self-

worth into practical

action. The

“scourges” of a

sense of self-worth

Read Free

Auslaufmodell

and dignity are  
identified by  
psychologists as  
violence, humiliation,  
disregard and  
embarrassment. To  
know more about how  
these can be avoided  
from psychologists, is  
helpful when  
protecting a sense of  
self-worth in others.
