CLINICIAN GUIDE. Portfolio Overview: Baxter Elastomeric

# Read Book Baxter Infusor Pumpclinician Guide

Pumps are non-electronic medication pumps designed to provide ambulatory infusion therapy. Medication is delivered to the patient as the elastomeric “balloon” consistently deflates and gently pushes solution through the IV tubing and into the catheter/port.

## Baxter Elastomeric Pumps - CAPCA

Baxter Elastomeric Devices are non-electronic medication devices designed to provide ambulatory infusion therapy. Medication is delivered to the patient as the elastomeric “balloon” consistently deflates and gently pushes solution through the IV tubing and into the catheter/port. The elastomeric technology promotes patient recovery and improves patient quality of life by allowing ambulatory treatment without the inconvenience of programming, power sources or alarms.
