The first thorough study of charity, and medical and poor relief, in post-Renaissance Italy.

Through the history of a charitable institution, the Tung Wah Hospital, Elizabeth Sinn reshapes and greatly deepens our understanding of the evolving interactions between the Chinese community in Hong Kong and the colonial rulers. She traces the rise to power of the Chinese merchants who organized and operated the Hospital and the complex relationships that the Hospital developed with the colonial regime, Mainland Chinese officials and the Chinese people of Hong Kong. As the first organized merchant elite recognized by the colonial government,

the Tung Wah Hospital Committee played a crucial political role in nineteenth-century Hong Kong, mediating between ordinary Chinese and the colonial administration. Elizabeth Sinn's classic and pioneering study shows the great extent to which the Hospital's history is the history of Hong Kong itself. The author highlights the problems encountered by the Hong Kong government in managing a foreign population and the role of the Chinese local elite in a colonial situation, while also exploring the complex but fascinating relations between the Chinese residents in Hong Kong and Chinese officials on the Mainland, and between Hong Kong and other Chinese communities. Based on primary source materials, this is an original and refreshing contribution to the study of Hong Kong and modern Chinese history which reveals and discusses many fundamental issues that are entirely relevant today. In a new preface to this paperback edition, Dr. Sinn reconsiders her work in the light of subsequent research on Hong Kong's history and connects it to recent developments in international scholarly work especially with respect to the study of philanthropy and to ideas of world history. "An excellent blend of history and ethnography. Power and Charity is one of the best books available on the everyday practice of colonialism in British Hong Kong. Sinn provides unique insights into a system that is fast becoming a distant memory. This book is required reading for

anyone interested in colonialism, medical history, or urban anthropology." –James L. Watson, Professor of Anthropology, Harvard University "Dr. Sinn's book . . . is essential reading for anyone wishing to understand Hong Kong society and politics in the nineteenth century." –Ian Scott, Journal of the Hong Kong Branch of the Royal Asiatic Society "(Dr. Sinn's) book is a fascinating and awesomely researched account of the (Chinese) community's efforts to hold its own in a foreign-dominated enclave." –Philip Snow, Far Eastern Economic Review

The Tung Wah Hospital was founded in 1869 to provide medical and charitable services for the Chinese population of Hong Kong. This book's description of the hospital's work illustrates how Chinese voluntary associations functioned in the nineteenth century and shows the important social and political role the Hospital Committee played in Hong Kong in the nineteenth century. This title also appears in the History of Medicine section of the Science and Medicine Quarterly Bulletin.

We praise those people who do things for others. But the symbolic power of giving means individuals can take advantage of the glow of 'goodness' that charity provides. This book analyses the reality of how charity operates in the social world: how the personal benefits of giving and volunteering

are vital for getting charitable acts to happen; how the altruism associated with gifts isn't always what it seems; how charity misbehaviour or bad management gets overlooked; and how charity symbols are weaponised against those who don't participate. Drawing on original data and a novel application of the sociology of Bourdieu, this book examines a wide range of examples from culture, politics and society to provide an entertaining critique of how contemporary charity works.

"Poignant and comic insights". -- The Globe and Mail Pulitzer Prize-winning author and playwright Carol Shields collaborates with her daughter, Catherine Shields to explore the social and private worlds of the modern family in this funny, poignant and gently challenging play.

»Roman Charity« investigates the iconography of the breastfeeding daughter from the perspective of queer sexuality and erotic maternity. The volume explores the popularity of a topic that appealed to early modern observers for its eroticizing shock value, its ironic take on the concept of Catholic »charity«, and its implied critique of patriarchal power structures. It analyses why

early modern viewers found an incestuous, adult breastfeeding scene »good to think with« and aims at expanding and queering our notions of early modern sexuality. Jutta Gisela Sperling discusses the different visual contexts in which »Roman Charity« flourished and reconstructs contemporary horizons of expectation by reference to literary sources, medical practice, and legal culture.

A blueprint for a national leadership movement to transform the way the public thinks about giving. Virtually everything our society has been taught about charity is backwards. We deny the social sector the ability to grow because of our short-sighted demand that it send every short-term dollar into direct services. Yet if the sector cannot grow, it can never match the scale of our great social problems. In the face of this dilemma, the sector has remained silent, defenseless, and disorganized. In *Charity Case*, Pallotta proposes a visionary solution: a Charity Defense Council to re-educate the public and give charities the freedom they need to solve our most pressing social issues. Proposes concrete steps for how a national Charity Defense Council will transform the public understanding of the humanitarian sector, including: building an anti-defamation league and legal defense for the sector, creating a massive national ongoing campaign to upgrade public literacy

about giving, and ultimately enacting a National Civil Rights Act for Charity and Social Enterprise From Dan Pallotta, renowned builder of social movements and inventor of the multi-day charity event industry (including the AIDS Rides and Breast Cancer 3-Days) that has cumulatively raised over \$1.1 billion for critical social causes The hotly-anticipated follow-up to Pallotta's groundbreaking book Uncharitable Grounded in Pallotta's clear vision and deep social sector experience, Charity Case is a fascinating wake-up call for fixing the culture that thwarts our charities' ability to change the world.

In the United States, public talk about charity for the poor is highly moralistic, even in our era of welfare reform. But how do we understand the actual experience of caring for the poor? This study looks at the front lines of volunteer involvement with the poor and homeless to assess what volunteer work means for those who do it. Rebecca Allahyari profiles volunteers at two charities—Loaves & Fishes and The Salvation Army—to show how they think about themselves and their work, providing new ways for discussing charity and morality. Allahyari explores these agencies' differing ideological orientations and the raced, classed, and gendered contexts they provide volunteers for doing charitable work. Drawing on participant observation, intensive interviewing, and content analysis of

organizational publications, she looks in particular at the process of self-improvement for these volunteers. The competing visions of charity Allahyari finds at these two organizations reveal the complicated and contradictory politics of caring for the poor in the United States today.

Addresses the ideals and institutions through which Middle Eastern societies have confronted poverty and the poor. Offering insights and analysis in a field that has only recently come into existence, this book explores the ideals and institutions through which Middle Eastern societies--from the rise of Islam in the seventh century C.E. to the present day--have confronted poverty and the poor. By introducing new sources and presenting familiar ones with new questions, the contributors examine ideas about poverty and the poor, ideals and practices of charity, and state and private initiatives of poor relief over this extensive time span. They avoid easy generalizations about Islam and the Middle East as they seek to set the ideals and practices in comparative perspective.
