Surveying Layout And
Dimension Control ...

Construction Staking,

Acces PDF Construction

also known as a Site Layout Survey, is the process of interpreting construction plans and marking the location of proposed new structures such as roads or buildings.

*Construction
Surveying Layout And
Dimension Control*

The layout of trenches establishes the

Acces PDF Construction

excavation size,
shape and direction,
as well as the width
and position of walls.

Trenches are
excavated once the
building outline has
been set out. The
width is often marked
with a line of dots of
dry lime powder for
accurate excavation
by hand, whereas the
centre line is marked

Acces PDF Construction

for accurate machine
excavation.

Construction
Drawings A floor plan
is carefully
dimensioned to
ensure that items
such as walls,
columns, doors,

Acces PDF Construction

windows, openings, stairs, and other particulars are correctly located for construction.

Sometimes after a plan is drawn accurately to a scale, its reproduction causes a slight enlargement or reduction of the drawing.

blueprints represent the size of an object in two- or three-dimensional space.

For example, a dimension of a rectangular room on a blueprint, 14' 11" X 13' 10" equates to a room size of 14 feet, 11-inches wide by 13 feet, 10-inches long. Dimensions are expressed as width by

Acces PDF Construction

length by height or
depth in three-
dimensional space.
