Soon to be a major motion picture! Now in Paperback: The harrowing adventure-at-sea memoir ("Terrific."-Daniel James Brown) recounting the 2013 search-and-rescue mission for lost Montauk fisherman John Aldridge. 5:14 a.m. I am floating in the middle of the night, and nobody in the world even knows I am missing. Nobody is looking for me. You can't get more alone than that. You can't be more lost. I've got too many people who love me. There's no way I'm dying like this. In the dead of night on July 24, 2013, John Aldridge was thrown off the back of the Anna Mary while his fishing partner, Anthony Sosinski, slept below. As desperate hours ticked by, Sosinski, the families, the local fishing community, and the U.S. Coast Guard in three states mobilized in an unprecedented search effort that culminated in a rare and exhilarating success. A tale of survival, perseverance, and community, A Speck in the Sea tells of one man's struggle to survive as friends and strangers work to bring him home. Aldridge's wrenching first-person account intertwines with the narrative of the massive, constantly evolving rescue operation designed to save him.

The 12-Volt Bible for Boats is a clear, nonthreatening introduction to the 12-volt electrical systems used on small boats to power everything from reading lights to bilge pumps. This second edition is thoroughly updated with respect to modern batteries, breaker and panel design, alternative energy sources, and troubleshooting equipment, but it retains the fundamental simplicity that is the source of its enduring popularity (more than 100,000 copies sold).

The U.S. Navy is ready to execute the Nation's tasks at sea, from prompt and sustained combat operations to every-day forward-presence, diplomacy and relief efforts. We operate worldwide, in space, cyberspace, and throughout the maritime domain. The United States is and will remain a maritime nation, and our security and prosperity are inextricably linked to our ability to operate naval forces on, under and above the seas and oceans of the world. To that end, the Navy executes programs that enable our Sailors, Marines, civilians, and forces to meet existing and emerging challenges at sea with confidence. Six priorities guide today's planning, programming, and budgeting decisions: (1) maintain a credible, modern, and survivable sea based strategic deterrent; (2) sustain forward presence, distributed globally in places that matter; (3) develop the capability and capacity to win decisively; (4) focus on critical afloat and ashore readiness to ensure the Navy is adequately funded and ready; (5) enhance the Navy's asymmetric capabilities in the physical domains as well as in cyberspace and the electromagnetic spectrum; and (6) sustain a relevant industrial base, particularly in shipbuilding.

I have physical scars from past surgeries, however, I have emotional scars as well. They were buried deep inside (hidden). It wasn't until my mother died was I able to "catch my breath" and to make sense of or process the emotional pain I had endured due to her prescription drug addiction, resulting in my own addictions.
