occurrence in a Benford's Law analysis. Digital analysis using Benford's Law was also used as evidence of voter fraud in the 2009 Iranian election.

Understanding and Applying Benfords Law
Not all the numbers abide by the Benford's law, but for those which do, violations raise concerns. For example, in accounting and auditing, also at a Governmental level, the Benford's law has been widely used to detect possible frauds (3-5). Population-based cancer registries produce a great amount of numbers: the cancer incidence rates.
