Haven't seen much publicity regarding the launch of this new book from the IEE/IET: Electrical Installation Design Guide: Calculations for Electricians & Designers Just got my copy yesterday - looks quite good, useful sort of little book and is in the standard sort of IEE On Site Guide spiral bound size, so easy to carry with you.

[IET Forums - Electrical Installation Design Guide](#)
A guide to lighting design for electricians and installers. Simon Robinson, Chair of the Society of Light and Lighting's (SLL) Technical and Publications Committee, provides some guidance about how to approach lighting design. The visual element of lighting is perhaps the most noticeable part of an electrical installation, and yet can be one of the most subjective, with the same lighting design generating very different responses from people.
