Frank Boreham was a minister born in England - his life underwent drastic change when he migrated to Australia, which became both his home and his inspiration. *The Luggage of Life* is the most autobiographical book written by the author, recounting the various escapades and challenges that accompanied the changes in his surroundings. Conscious of the fact he was well-traveled and knowledgeable of different countries, Frank Boreham sought to gain and channel his life experiences into his work as a Christian minister. The various anecdotes that comprise this book, of places seen and people met, contributed to a spiritual philosophy the author lived by. As well as being an insightful and heartening memoir of a worldly person, *The Luggage of Life* also offers glimpses of life in England and Australia in the late 19th and early 20th centuries. Observant and reflective by nature, Boreham draws upon the literature he appreciated to articulate his adventures. As a clergyman, he makes apt use of Christian allegory and a uniquely colorful kind of wisdom to further imbue each of these stories with memorable expressiveness seldom seen in autobiographic works by those with a background in the church.

This dynamic text offers a rare glimpse into the literacy development of urban children and their families' role in it. Based on the author's candid interviews with her first-grade students, their parents and grandparents, this book challenges the stereotypical view that urban parents don't care about their children's education. By listening closely to the voices of her students and their families, the author helps us to move beyond negative assumptions, revealing

The QRI-5 has long led the field in offering students and teachers alike a reliable and easy-to-use informal assessment instrument. This Fifth Edition continues to emphasize authentic assessment of children's reading abilities, from the most emergent readers to advanced readers. One of the keys to the success of the QRI-5 is that it contains narrative and expository passages at each pre-primer through high school level. All are self-contained selections highly representative of the structure and topic of materials found in basal readers and content-area textbooks. This new edition includes new narrative texts that are even easier than the pre-primer passages previously included. At the same time, it provides graded word lists and numerous passages designed to assess the oral reading, silent reading, or listening comprehension of a student as well as questions to assess prior knowledge. Instructors can measure comprehension by retelling passages, using implicit and explicit questions, and using other devices. What's New in the QRI-5? # Narrative texts even easier than the pre-primer passages previously included, as well as another narrative to all primary grade levels. # Passages at pre-primer through second grade levels that are presented with and without pictures. # Map and illustrations as part of expository selections at fourth through high school levels. # Accompanying DVD content has been expanded to include * Examples of students reading orally * Scored protocols to accompany readings * Directions for administering each segment of the QRI * Tables/Charts that increase consistency of administration, scoring, and
