A Kirkus Reviews Best Children's Book NEW FROM 2018 SIBERT MEDALIST LARRY DANE BRIMNER! Here is the story of 19 men from the film industry who were investigated for suspected communist ties during the Cold War, and the 10—known as the Hollywood Ten—who were blacklisted for standing up for their First Amendment rights and refusing to cooperate. World War II is over, but tensions between the communist Soviet Union and the US are at an all-time high. In America, communist threats are seen everywhere and a committee is formed in the nation's capital to investigate those threats. Larry Dane Brimmer follows the story of 19 men—all from the film industry—who are summoned to appear before the House of Representatives Committee on Un-American Activities. All 19 believe that the committee's investigations into their political views and personal associations are a violation of their First Amendment rights. When the first 10 of these men refuse to give the committee the simple answers it wants, they are cited for contempt of Congress and blacklisted.

And with a crayon in his hand, Jamie eases into a green feeling—like a dragon dancing through a jungle made of green jello. But when his brothers push him around and make fun of his drawings, Jamie feels like a dark gray storm brewing. What will it take to put Jamie back in a bright-feeling mood? Through Jamie, young readers will learn to describe how they're feeling in a unique way. My Cold Plum Lemon Pie Bluesy Mood is a 2014 Charlotte Zolotow Honor Book.

Even fifteen years after the end of the Cold War, it is still hard to grasp that we no longer live under its immense specter. For nearly half a century, from the end of World War II to the early 1990s, all world events hung in the balance of a simmering dispute between two of the greatest military powers in history. Hundreds of millions of people held their collective breath as the United States and the Soviet Union, two national ideological entities, waged proxy wars to determine spheres of influence—and millions of others perished in places like Korea, Vietnam, and Angola, where this cold war flared hot. Such a consideration of the Cold War—as a military event with sociopolitical and economic overtones—is the crux of this stellar collection of twenty-six essays compiled and edited by Robert Cowley, the longtime editor of MHQ: The Quarterly Journal of Military History. Befitting such a complex and far-ranging period, the volume's contributing writers cover myriad angles. John Prados, in "The War Scare of 1983," shows just how close we were to escalating a war of words into a nuclear holocaust. Victor Davis Hanson offers "The Right Man," his pungent reassessment of the bellicose air-power zealot Curtis LeMay as a man whose words were judged more critically than his actions. The secret war also gets its due in George Feiffer's "The Berlin Tunnel," which details the charismatic C.I.A. operative "Big Bill" Harvey's effort to tunnel under East Berlin and tap Soviet phone lines—and the Soviets' equally audacious reaction to the plan; while "The Truth About Overflights," by R. Cargill Hall, sheds light on some of the Cold War's best-kept secrets. The often overlooked human cost of fighting the Cold War finds a clear voice in "MIA" by Marilyn Elkins, the widow of a Navy airman, who details the struggle to learn the truth about her husband, Lt. Frank C. Elkins, whose A-4 Skyhawk disappeared over Vietnam in 1966. In addition there are profiles of the war's "front lines"—Dien Bien Phu, the Cuban Missile Crisis, the Bay of Pigs—as well as of prominent military and civil leaders from both sides, including Harry S. Truman, Nikita Khrushchev, Dean Acheson, Gen. Douglas MacArthur, Richard M. Nixon, Gen. Vo Nguyen Giap, and others. Encompassing so many perspectives and events, The Cold War succeeds at an impossible task: illuminating and explaining the history of an undeclared shadow war that threatened the very existence of humankind.

The US-Soviet arms race, told through the story of a colorful and visionary American Air Force officer—melding biography, history, world affairs, and science to transport the reader back and forth from individual drama to world stage. "Compulsively readable and important." —The New York Times Book Review In this never-before-told story, Neil Sheehan—winner of the Pulitzer Prize and the National Book Award -- details American Air Force officer Bernard Schriever's quest to prevent the Soviet Union from acquiring nuclear superiority, and describes American efforts to develop the unstoppable nuclear-weapon delivery system, the intercontinental ballistic missile, the first weapons meant to deter an atomic holocaust rather than to be fired in anger. In a sweeping narrative, Sheehan brings to life a huge cast of some of the most intriguing characters of the cold war, including the brilliant physicist John Von Neumann, and the hawkish Air Force general, Curtis LeMay.

The Butter Battle Book, Dr. Seuss's classic cautionary tale, introduces readers to the important lesson of respecting differences. The timeless and topical rhyming text is an ideal way to teach young children about the issues of tolerance and respect. Whether in the home or in the classroom, The Butter Battle Book is a must-have for readers of all ages.
