HSE – Basic Concepts. Petroleum industry makes use of many different activities in all the sectors of the business cycle: from upstream to downstream. Oil and services company's management apply HSE policies to all levels of operations and in all sectors. Health, Safety, Environment are separate issues, each with its own technology, but they are often combined in the same functional groups within the oil companies.

File Type PDF Hse Manual For Oil Gas Pipeline Tervol

It's an understatement to say in the past few years the oil and gas industry – both “upstream” in exploration and drilling operations, and “downstream” in refining processes – has gone through formidable safety challenges and traumatic safety-related incidents. Today, major oil and gas multinationals are among the most transparent of any enterprises in sharing safety and health ...
