This one-of-a-kind book respectfully compares the beliefs of over 20 religions in 7 basic doctrinal areas (like "The Nature of God" and "The Origin and Nature of Man"). It answers many of the questions that echo in the hearts of all who seek truth and spirituality, such as: Are all religions different paths to the same God? Are all names given to God equally legitimate? Is Ultimate Reality a personal God or an impersonal cosmic energy? What does it mean to be "one with God"? Is truth subjective or objective? Do human beings have one earthly existence or many reincarnations? Is the universe a creation of God or an emanation of God? Is there a final climactic end to the universe or endless cycles of creation? In Search of the True Light also chronicles Mike Shreve's personal spiritual journey from Eastern religions to Christianity. He was a teacher of yoga and meditation at four universities and ran a yoga ashram, until a dramatic encounter with God caused him to embrace a Biblical worldview. The comparison of these two belief systems makes for a very intriguing study.The unique method of categorization makes it perfect for classroom use and attractive as a reference source. An excellent addition to any library or school curriculum.

It has only been recognised tardily and with reluctance that during the Second World War hundreds of thousands of itinerants met the same horrendous fate as Jews and other victims of Nazism. Gypsies appear to appeal to the imagination simply as social outcasts and scapegoats or, in a flattering but no more illuminating light, as romantic outsiders. In this study, contemporary notions about Gypsies are traced back as far as possible to their roots, in an attempt to lay bare why stigmatisation of gypsies, or rather groups labelled as such, has continued from the distant past even to today.

Each and every human being in history has been created to make the world a better place. Some of us have been blessed with more health, wealth, wisdom, and security. But all of us have a unique ability to make a difference. There is a compelling Quran verse informing us that all living beings have been chosen by God as his khalifas (agents and inheritors) on earth. The question that constantly whispers in my ear and drives my every action is "In what specific ways can I be God’s khalifa?" With so much chaos surrounding us, where would I start? I had recently felt confused. I wanted to do something, but I didn’t know what. And so this book emerged. Writing it has been a process to overcome my paralysis and start the momentum. Through this self-reflection, I have come up with a five-step formula to living happily forever. Firstly, I hope this book will inspire others to determine their ultimate destiny as I’ve attempted to do. Secondly, I hope to provide a roadmap for others toward an eternal life of happiness by helping those less fortunate, utilizing our unique skills and interests. Thirdly, I hope to bridge the gap between the American and Saudi cultures. Extremists have created unjustified distrust on both sides. Most Americans feel Saudis are violent, backward, and unapproachable, while many Saudis see Americans as imperialistic warmongers. Having lived most of my life between both cultures, I will highlight the similar values and beliefs Americans and Saudis share. I aim to outvoice the extremists, who have thus far dominated the conversation, and to provide a realistic picture of both cultures.

Mallory faces hope and fear in her relationship with her son and with Brady Donaldson as she slowly finds her way back to family and God.

Ruben, Rose and Rathi are triplets, but they grow up under different circumstances and don’t know that they are triplets. Because of this secret, their lives are exposed to troubles; whether they overcome it or not is the story. Ruben is the hero of the story but a zero in society. Rose feels physically challenged due to her odd breast and is not willing to challenge life. So, she hides her life behind the four walls of her house. Joseph, the father of the triplets—the father of all complications, the father of fate, the father of chilliness and the father of anxiety—doesn’t like his children being together. He also plays an important role in this story, which is about their lives, thoughts, tragedies, comedies, beliefs, beginnings, ends, cultures and fulfillments. It’s a mixture of life and death. This pungent, piquant, exciting and stimulating work drives you to cross the river of love, lust, loyalty, liberty, learning, losing and finally, flying.

This book examines the provincial theme in post-Soviet literature, film, and journalism as a cultural representation of Russian nationalism. Its focus is on "the provinces" of cultural myth: the imagined domain of authentic Russianness, and collective contemplation of the recurring questions concerning Russia's past and future, what it means to be "Russian," and where "true" Russians reside. Cultural production today locates true Russianness outside the newly prosperous, multiethnic, and westernized Moscow. In mass culture, the traditional privileging of the center, over the backward provinces, yields to a view of the provinces as the repository of national tradition and moral strength. Conversely, high literature and art-house cinema provide an alternative, harshly critical image of the provinces. Differing perspectives notwithstanding, both are negotiating a particular concept of Russianness, in which the provinces play a central role and, ultimately, function to both redirect nationalist discourse away from the deeply unsatisfying model of Russia versus the West, and put forth a hermetic national identity, based on the opposition of "us versus us," rather than "us versus them."

Dissolve the distractions of ego to find our authentic selves in God In his bestselling book Falling Upward, Richard Rohr talked about ego (or the False Self) and how it gets in the way of spiritual maturity. But if there's a False Self, is there also a True Self? What is it? How is it found? Why does it matter? And what does it have to do with the spiritual journey? This book likens True Self to a diamond, buried deep within us, formed under the intense pressure of our lives, that must be searched for, uncovered, separated from all the debris of ego that surrounds it. In a sense True Self must, like Jesus, be resurrected, and that process is not resuscitation but transformation. Shows how to navigate spiritually difficult terrain with clear vision and tools to uncover our True Selves Written by Father Richard Rohr, the bestselling author of Falling Upward Examines the fundamental issues of who we are and helps us on our path of spiritual maturity Immortal Diamond (whose title is taken from a line in a Gerard Manley Hopkins poem) explores the deepest questions of identity, spirituality, and meaning in Richard Rohr's inimitable style.

The book will take you through a psycho-spiritual journey in hope of finding your "SOUL" and be able to live peacefully and harmonically with your "True Self" The book is exciting because you can find a map to trace you back to your origin, find out where you detour. Exercise are available for you to explore and fix the past. The outcome is worthy of the journey.

This ground-breaking work documents Russian efforts to appropriate Western solutions to the problem of economic backwardness since the time of Catherine the Great. Entangled then as now with issues of cultural borrowing, educated Russians searched for Western nations, ideas, and social groups that embodied universal economic truths applicable to their own country. Esther Kingston-Mann describes Russian Westernization--which emphasized German as well as Anglo-U.S. economics--while she raises important questions about core values of Western culture and how cultural values and priorities are determined. This is the first historical account of the significant role played by Russian social scientists in nineteenth-century Western economic and social thought. In an era of rapid Western colonial expansion, the Russian quest for the "right" Western economic model became more urgent: Was Russia condemned to the fate of India if it did not become an England? In the 1900s, Russian liberal economists emphasized cultural difference and historical context, while Marxists and prerevolutionary government reformers declared that inexorable economic laws doomed peasants and their "medieval" communities. On the eve of 1917, both the tsarist regime and its leading critics agreed that Russia must choose between Western-style progress or "feudal" stagnation. And when peasants and communes survived until Stalin's time, he mercilessly destroyed them in the name of progress. Today Russia's painful modernizing traditions shape the policies of contemporary reformers, who seem as certain as their predecessors that economic progress requires wholesale obliteration of the past.
