Sir Charles Oman's History of the Peninsular War Volume II: January To September 1809 From The Battle of Corunna to the end of The Talavera Campaign £ 28.00 £ 19.99 The fate of the Iberian Peninsula was very much in the balance during the period January-September 1809, when it seemed all too possible that Napoleon would achieve control over Spain and Portugal.

Illustrated with 9 maps and 5 portraits The 1807-14 war in the Iberian Peninsula was one of the most significant and influential campaigns of the Napoleonic Wars. Arising from Napoleon's strategic need to impose his rule over Portugal and Spain, it evolved into a constant drain on his resources. Sir Charles Oman's seven-volume history of the campaign is an unrivalled and essential work. His extensive use and analysis of French, Spanish, Portuguese and British participants' accounts and archival material, together with his own inspection of the battlefields, provides a comprehensive and balanced account of this most important episode in Napoleonic military history. The fate of the Iberian Peninsula was very much in the balance during the period January-September 1809, when it seemed all too possible that Napoleon would achieve control over Spain and Portugal. This volume covers the continuing Spanish resistance to

French occupation, the renewed French invasion of Portugal, and the return to the Peninsula and subsequent victories of Sir Arthur Wellesley, including his outmanoeuvring of the French from Oporto and culminating in the hard-fought victory at Talavera.

The fate of the Iberian Peninsula was in the balance during the period January-September 1809, when it seemed possible that Napoleon would achieve control over Spain and Portugal. This volume covers the continuing Spanish resistance to French occupation, the renewed French invasion of Portugal, and the subsequent victories of Sir Arthur Wellesley.

Sir Charles Oman's monumental study is unquestionably the most complete and readable account of the Peninsular War ever written; it is also breathtaking in its scope and detail. The seven volumes chart the course of the war, from its opening shots in 1807, to the final expulsion of the French from Spain and invasion of France in 1814.

This pathbreaking book shows how credit markets functioned in Paris, through the agency of notaries, during a critical period of French history. Its authors challenge the usual assumption that organized financial markets—and hence the opportunity for economic growth—did not emerge outside of England and the Netherlands until the nineteenth century. Drawing on innovative research, the authors show that as early as the Old Regime, financial intermediaries in France were mobilizing a great tide of capital and arranging thousands of loans between borrowers and lenders. The implications for historians and economists are substantial. The role of notaries operating in Paris that *Priceless Markets* uncovers has never before been recognized. In the wake of this pathbreaking new study, historians will also have to rethink the origins of the French Revolution. As the authors show, the crisis of 1787-88 did not simply ignite revolt; it was intimately bound up in an economic struggle that reached far back into the eighteenth century, and continued well into the 1800s.
