The Jockey Pump, an Important Part of a Fire Pump System. August 1, 2009 Rev. No. 2 A
Jockey Pump is an important component of a fire pump system. The Jockey Pump is not as mundane as many engineers, contractors, and installers would have you believe.

Acces PDF Jockey Pump Manual

~~The Jockey Pump, an Important Part of a Fire Pump System.~~

1) The jockey pump stop point should equal the pump churn pressure plus the minimum static supply pressure. 2) The jockey pump start point should be at least 10 psi (0.68 bar) less than the jockey pump stop point. 3) The fire pump start point should be 5 psi (0.34 bar) less than the jockey pump start point.

~~Pressure Maintenance (Jockey) Pumps | Fire Protection ...~~

Acces PDF Jockey Pump Manual

The purpose of the jockey pump is to keep the water pressure in the pipes within a specific range when there's not a fire, so that the sprinklers won't go off randomly. Since pipes leak, over time, the water pressure inside them automatically goes down. The jockey pump senses this, and then fills them back up to normal pressure.

~~What is a Jockey Pump? (with pictures)~~
wiseGEEK

A jockey pump is sized for a flow less than the flow to one sprinkler in order to ensure a system pressure drop. Hence a jockey pump

Acces PDF Jockey Pump Manual

is an important part of the fire pumps control system. Jockey pumps are typically small multistage centrifugal pumps, and do not have to be listed or certified for fire system application. The control equipment for jockey pumps may however carry approvals ...
