## ~~Complications and Risks of Knee Replacement Surgery~~

As with any operation, knee replacement surgery has risks as well as benefits. Most people who have a knee replacement do not have serious complications. After having a knee replacement, contact your doctor if you get: hot, reddened, hard or painful areas in your legs in the first few weeks after your operation – although this may just be bruising from the surgery, it could mean you have deep vein thrombosis (DVT), which is a blood clot in the leg.
