For the aficionado of farm equipment, or the scion of an old farming family nostalgic for the old days, or the grown-up boy who still loves a classic piece of old-time machinery, the vintage tractor can be a thrilling find like no other. This book tells dozens of stories of such discoveries, of the treasured old tractor parked in a shed since 1927, of the pristine model unearthed at an estate sale, of the broken-down old beauty stashed in a barn where generations of children have made their secret hideaways. These are the classic tractors that are often as hard to find as a needle in a haystack—but far more fun to discover, as all of these delightful stories make abundantly clear.

This title examines the history of the Washington Redskins, telling the story of the franchise and its top players, greatest games, and most thrilling moments. This book includes informative sidebars, high-energy photos, a timeline, a team file, and a glossary. SportsZone is an imprint of Abdo Publishing Company.

This myth-busting book shows how "forgotten" middle children can-and do-rule the world. In this counterintuitive book, psychologist Catherine Salmon and journalist Katrin Schumann combine science, history, and real-life stories to reveal for the first time that our perception of middle children is dead wrong. Using unpublished and little-known research from evolutionary psychology, sociology, and communications, The Secret Power of Middle Children illustrates how adaptive strategies middleborns develop during childhood translate into stronger friendships, lasting marriages, successful careers, and effective parenting. Over seventy million adult Americans are middle children, and forty percent of young American families have middle children. With constructive advice on how to maximize the benefits and avoid the pitfalls of being a middle child, Salmon and Schumann help middle children at any age (and their parents) use birth order as a strategy for success.

There are over 2000 registered historic buildings in Shanghai, with hundreds more waiting to be added. Most are pre-War structures and are either Western buildings, or Chinese-style buildings with a distinct Western influence. These include villas, offices, apartment buildings and shikumen (a house of both wood and brick). Structures were selected for this book because of the interesting stories behind them or because they were related to a topical news event.
