"Our inner and outer worlds are so closely related. . . . For a measure of your comfort with the dark, notice how many lights you leave on at night. Is one per room

## Learning to Walk in the Dark

Short, good read. p.186: "The best thing I can say is that learning to walk in the dark has allowed me to take back my faith, removing it from the glare of the full solar tradition to recover by the The part of American culture that encourages us to protect ourselves and others from "darkness" can also prevent us from examining our lives more fully, from doing the work that provides answers to who we are.

## Learning to Walk in the Dark by Barbara Brown Taylor

Learning to walk is one of the most important achievements in your baby's life, as it's a big step towards independence. Once he is on his feet, your baby will become a little explorer. When will my baby be able to walk? During your baby's first year, he'll gradually become more coordinated and his muscles will get stronger.

## Developmental milestones: walking - BabyCentre UK

By the age of 13 months, three quarters of toddlers will be walking unaided (if you can call it 'walking'), but many children don't master it until 17 or 18 months of age. Again, these timelines are just guides - some kids start early, some are busy working on other things, like building brilliant brains that might one day work out a way to cure cancer or colonise Mars.
