A seer "sees" more than meets the eye. Ordinary seeing reveals the visible world through one's perceptions of light patterns that we interpret as "the world." Higher seeing perceives patterns and relationships that are invisible to the physical eyes, yet are nevertheless present in our world. This is truly a form of perception, but through the eyes of the soul, or heart. All seeing is a form of cognition, or knowing, and, likewise, higher sight is a form of higher cognition. These two kinds of perception go together. To be a seer is to use the eyes of the soul together with one's physical eyes -- being able to move from one to the other, letting go of one for the other. For those who wish to develop faculties of higher knowing and seeing, The Seer's Handbook is a unique, practical, and extensive guide, filled with exercises, meditations, and insightful commentary.
