Convergence

~~Media convergence |~~
Networked
Britannica

Media convergence
can mean one of two
things: Either the
merging of previously
distinct media
technologies resulting
from digitization and
computer
networking—some of
which are covered
elsewhere in this

Online Library Media

article—or an economic strategy in which the media properties owned by communications companies employ digitization and computer networking to work together.

media in everyday
life.

Media convergence:
networked digital
media in everyday ...

Media convergence
involves the
movement from mass
communication to
networked
communication. This
movement has
created a media

Online Library Media

global environment where moving from mass communicators such as TV or radio to networked digital media in everyday life. This transition is evident of a technological convergence where it has changed the way news are reported and viewed in today's

Online Library Media

world. ~~Convergence~~

~~Networked
Media Convergence :

From Mass For
Networked
Communication ...~~

Media Convergence
Media convergence
refers to the merging
of previously distinct
media technologies
and platforms through
digitization and
computer networking.

Online Library Media

This is also known as technological convergence. Media convergence is also a business strategy whereby communications companies integrate their ownership of different media properties.

~~Media Convergence |
The Canadian~~

Online Library Media

Encyclopedia

In a technological sense, media convergence is all about integration and inter-operability; the coming together of computing networks, information and communication technologies, and digital forms...

According to Media
Convergence:
Networked Digital
Media in Everyday
Life, book by Graham
Meikle and Sherman
Young observe that
Convergence can be
understood in four

Online Library Media

dimensions:

Technological—the combination of computing, communications and content around networked digital media platforms;
Industrial—the engagement of established media institutions in the digital media space, and the rise of

Online Library Media

digitally-based
companies such as
Google, Apple,
Microsoft and others
as significant media
content ...
