This one-stop Mega Reference eBook brings together the essential professional reference content from leading international contributors in the automotive field. An expansion the Automotive Engineering print edition, this fully searchable electronic reference book of 2500 pages delivers content to meet all the main information needs of engineers working in vehicle design and development. Material ranges from basic to advanced topics from engines and transmissions to vehicle dynamics and modelling. * A fully searchable Mega Reference Ebook, providing all the essential material needed by Automotive Engineers on a day-to-day basis. * Fundamentals, key techniques, engineering best practice and rules-of-thumb together in one quick-reference. * Over 2,500 pages of reference material, including over 1,500 pages not included in the print edition

Beauty manifests itself in nature, and that beauty inspires love, kindness, and goodwill. In The Morning Echo, author Javed Naseer explores a plethora of subjects revolving around nature and science and the role they play in life. Collected from his life experiences from his early childhood after leaving India for New Orleans to adulthood, the essays are based on experiments and speculation as well as mathematics, derivation, and extrapolation. These essays share insights on a wide array of topics, discussing how India emerged as a free democratic republic after dethroning British from positions of authority in the Indian subcontinent; presenting a brief introduction to a ruling democratic government and its methods of implementing justice; and describing the Apollo 11 mission to the moon and the first man, Neil A. Armstrong, on the moon. Naseer also delves into the issues involving the ever-growing world population and the pollution crisis that plagues our planet; brings to light one of the cheapest resources of energy, hydropower; lists the top ten universities of the world; and reviews Einsteins Special Relativity and Newtons Laws of Motion Covering widely diverse subjects, The Morning Echo communicates valuable insight as to the nature of human life, the world around us, and how we must act in order to survive the calamities and the brutalities of time.

Tras un profundo an á lisis y estudio de las principales referencias nacionales e internacionales relacionadas con la materia, el manual aporta un enfoque actualizado y centrado en la pr á ctica profesional del proceso de creaci ó n en el á mbito de la publicidad. En concreto, se realiza una descripci ó n sistem á tica del trabajo del creativo publicitario y se reproduce de forma prag m á tica su metodolog í a. Todo ello combinado con una esmerada base investigadora que aporta consistencia a los contenidos desarrollados. La obra combina la parte te ó rica con el enfoque emp í rico-profesional. Est á salpicada de ejemplos de publicidad hist ó rica y actual que ilustran los conceptos explicados a lo largo de la misma. As í , el manual se estructura en seis temas organizados en tres partes. La parte primera establece los conceptos b á sicos de la creatividad como objeto de estudio cient í fico y presenta las principales l í neas de investigaci ó n incluyendo las aportaciones m á s destacadas del á mbito de la psicolog í a y de la psicolog í a social. La parte segunda gira en torno a la configuraci ó n de la creatividad como actividad profesional, su ubicaci ó n en el entorno laboral, las funciones que desempe ñ a el creativo y las relaciones que se establecen con otros profesionales en el desempe ñ o de su trabajo. Por ú ltimo, la tercera parte desarrolla los conceptos te ó ricos analizados en la primera, pero aplicados a la actividad publicitaria, desarrollando los componentes de la estrategia creativa en la comunicaci ó n publicitaria, as í como su aplicaci ó n en los medios de comunicaci ó n.

High standards of NVH (Noise, Vibration and Harshness) performance are expected by consumers of all modern cars. Refinement is one of the main engineering and design attributes to be addressed in the course of developing new vehicle models and vehicle components. Written for students and engineering practitioners, this is the first book to address automotive NVH. It will help readers to understand and develop quieter, more comfortable cars. With chapters on the fundamentals of acoustics and detailed coverage of practical engineering solutions for noise control issues it is suitable for students of automotive engineering and engineers who haven't been trained in acoustics, and will be an important reference for practicing engineers in the motor industry. · The first book devoted to the refinement of noise and vibration in automobiles · Combines a detailed explanation of the fundamentals of acoustics and the science behind vehicle noise and vibration with practical tips and know-how for noise and vibration control. · Based on real world experience with a variety of automotive companies including Ford, BMW and Nissan
