— this “musicophilia” -  
Tales Of Music  
And The Brain  
shows itself in infancy, is  
manifest and central in  
every culture, and  
probably goes back to  
the very beginning of  
our species. ” The book  
begins with Dr. Sacks  
retelling an  
extraordinary story of a  
man who was hit by  
lightening, had a near-  
death experience, and

“ Music, uniquely among the arts, is both completely abstract and profoundly emotional. It has no power to represent anything particular or external, but it has a unique power to express inner states or feelings. Music can pierce the heart directly; it needs no mediation. ” Oliver Sacks, *Musicophilia: Tales Of Music And The Brain*
