the unfolding of the twentieth century global economy, the author explores the work of Marx as well as two of his most trenchant critics, Schumpeter and Weil. While critical of that central pillar of Marxism, the labour theory of value, the author concludes that some of Marx's ideas, especially those concerning over-

expressed their yearning for ways of life that are free from oppression, want and fear, through philosophy, art, film and literature. In this concise and engaging book, Mark Jendrysik examines the multifarious ways utopians have posed the question of how human beings might establish justice and realize truly human

values. Drawing upon a range of sources, from Plato's Republic and Thomas More's Utopia to Ursula Le Guin's The Dispossessed, he argues that, though for many utopia means 'demanding the impossible', the goals that seemed out of reach for one generation are often realized in the next. Nonetheless, he shows that,
