The experiments described in this manual are designed to accompany Physics 250. They are for the most part different in character from those done in conjunction with Physics 150-151. In those courses you studied macroscopic physics such as falling bodies and magnetic fields associated

Acces PDF Physics 2054 Lab Manual

with currents, and the labs were generally concerned with phenomena on the macroscopic level. In this course ...

~~Physics 250 Lab Manual~~

In this lab you will study the motion of bodies moving in one dimension. To

Access PDF Physics 2054 Lab Manual

minimize unwanted forces on the test object, you will use an air track (see Fig. 1.1). The glider floats on a cushion of air above the track, eliminating most of the friction between the glider and the track.
