Revolutions that made the Earth - Oxford Scholarship

Download Free Revolutions That Made The Earth

The revolutions have certain features in common, such as an increase in the complexity, energy utilization, and information processing capabilities of life. *Revolutions That Made the Earth* describes these revolutions, showing the fundamental interdependence of the evolution of life and its non-living environment. We would not exist unless these upheavals had led eventually to 'successful' outcomes - meaning that after each one, at length, a new stable world emerged.
