name would indicate, the black, chthonic witchcraft based both on historic record and astral communion with the Ascended Masters originating in the ancient Hebridean Isles - these so referenced now sending their Undead clarion call to a new generation of potential Adepts, those seeking that which is inherently transhuman and beyond. Positioning their approach to the Sinister Tradition as explicitly vampiric in nature and ontology, the core West Yorkshire-based coven of the organization of authorship and its controversial head, A.A. Morain, delves deep into not only the historic underpinnings of their unique current, instead including, as well, its ordeals, initiatory degrees, entheogenic practices,

bestiaries, rites, predatory astral praxis and hitherto secretive, occult and potentially applicable knowledge of a dangerous degree encompassing multiple levels of experience, thus allowing the perspicacious readership with the maximum of will and determination to avail themselves of a transfiguration both horrific - yet godlike - albeit still horrific and fell in nature.

From the blood-stained moors of West Yorkshire, England, comes a genuinely amoral vampiric praxis melding the black arts of predatory astral vampirism with the harsh ordeal-based approach of the Sinister Seven-Fold Way. In Codex Aristarchus, A.A. Morain

presents the definitive collective works of the Drakon Covenant, including vampiric theory, rites and methods by which the reader themselves can step upon the black path of the Wamphyri - feeding upon the human herd and taking the treacherous road to confrontation with the bleak Ascended Masters, the Undead.

While there are an increasing number of books regarding psychic vampirism appearing in recent years, consumerate to the increase and popularity of left-hand path occult publishing, many fall far short of the mark - whether the reason be the result of being written from a markedly neophyte perspective,

elements of the vampiric being only a stylistic veneer or via an attempt to tame and direct a current of predatory spirituality that at its very core quintessence not only embraces all that which is corrupt, chaotic and unbound and but amplifies it a thousand fold. The Black Art of Vampirism possesses none of the mar of lesser volumes, neither is it a vehicle for another current that would dilute the profound amorality and transhumanism that genuine vampirism entails. Written by the leadership of the Tempel ov the Black Vampire slowly, intentfully and meticulously over the last ten years, this book presents the means and methods of vampiric, predatory spirituality unchained. Its pages extol and

are immersed in the horrific intersection where real-world criminality and otherworldly, ghastly spiritual discipline conjoin - leading the reader on a bleak descent down the treacherous paths of abomination.

THE SINISTER TRADITION is an authorized edition of three core works of the Order of Nine Angles: the Grimoire of Baphomet, Codex Saerus, and Naos. The Order is one of the oldest schools to codify Satanic practice, and these texts form the basis of the ONA's hermetic Seven-Fold Way, and the system of Traditional Satanism. Herein is described a way of sinister, predatory spirituality which will challenge its readers to find and defy the limits of self and society.

Through the Grimoire of Baphomet, Codex Saerus, and Naos, the initiate learns the basics of the Septenary system, the mythos of the Dark Gods, the basics of Sinister Sorcery, Sinister Chant, the Star Game, and the Seven-Fold Way leading to Adept hood and beyond.

Corpus Secuntra, Telos - (English Version) This collection, entitled "Telos" contains various texts written by associates of Secuntra Nexion - the Traditional Italian Temple of the Order of Nine Angles (ONA, O9A) for over a decade. The intent of this present collection is to show i) an ONA/O9A Traditional Nexion in action, including part of its

ceremonies, practices, training, and tactics, as undertaken in the real world; ii) the living and growing nature of the Order of Nine Angles (ONA, O9A) as a totality of Nexions and individuals operating clandestinely and in secret, bound by the same ethos, the same culture, and the same Logos, as enshrined in the Code of Kindred Honour; iii) some of the ordeals, tasks, and dares undertaken in the real world over many years by an Initiate who follows the Seven-Fold Way in the traditional manner - ordeals, tasks, and dares, which have often lead that Initiate to experiment and go beyond their own physical, mental, and intellectual limits, in addition to the limits of the so-called "society" in which they live, often by

breaking, and thereby daring, its law in order to learn; iv) the essence of the Sinisterly-Numinous Tradition beyond the transient forms used to Presence The Dark - transient forms such as Satanism and National Socialism - and to bring about pathei-mathos. As such, this is the first work of its kind that openly deals with the Nexion's operation (as an ONA Temple/group). Unlike previously released texts, this work deliberately employs more visual forms- such as images and paintings - in addition to the printed word. This is to give a proper overview that in reality depicts at least part of what is trying to be communicated. As with all works of the Order of Nine Angles (ONA, O9A), this present collection may disturb some people,

especially the fake and docile latter-day Satanists. It may, in turn, appear to be totally heretical to the law.

The present work contains esoteric manuscripts circulated among members of the ONA. HOSTIA contains further details of the sinister tradition of that Order and compliment the information about it already available in the books 'Naos', 'The Black Book of Satan' and 'The Deofel Quartet' as well as that published in the journal 'Fenrir'. The aim of publishing these MSS is to make the rituals and methods of this sinister tradition available to all those who might be interested. Such publication, as will be evident, enables individual potential to be fulfilled, aiding the

emergence of a new Aeon. This edition contains the contents of HOSTIA vols. I-III.
