In 1985, President Ronald Reagan received a group of bearded turban-wearing men who looked like they came from another century. After receiving them in the White House, Reagan spoke to the press, referring to his foreign guests as "freedom fighters." These were the Afghan mujahideen. In August 1998, another American president ordered missile strikes from the American navy based in the Indian Ocean to kill Osama bin Laden and his men in the camps in Afghanistan. The terrorist of yesterday is the hero of today, and the hero of yesterday becomes the terrorist of today. In Terrorism: Theirs and Ours, Eqbal Ahmad holds up the concepts of "terrorist" and "freedom fighter" to U.S. foreign policy. What do these terms mean? Where do they apply? How can the roots of political violence be stemmed? An invaluable primer.

Edgar Award Finalist for Best First Novel by an American Author "Captivating . . . has qualities any reader would wish for: adventure, romance, history and a vividly described exotic setting."–The Washington Post In 1925 the international treasure-hunting scene is a man's world, and no one understands this better than Irene Blum, who is passed over for a coveted museum curatorship because she is a woman. Seeking to restore her reputation, she sets off from Seattle in search of a temple believed to house the lost history of Cambodia's ancient Khmer civilization. But her quest to make the greatest archaeological discovery of the century soon becomes a quest for her family's secrets. Embracing the colorful and corrupt world of colonial Asia in the early 1900s, The Map of Lost Memories takes readers into a forgotten era where nothing is as it seems. As Irene travels through Shanghai's lawless back streets and Saigon's opium-filled lanes, she joins forces with a Communist temple robber and an intriguing nightclub owner with a complicated past. What they bring to light deep within the humidity-soaked Cambodian jungle does more than change history. It ultimately solves the mysteries of their own lives. Look for special features inside. Join the Random House Reader's Circle for author chats and more. Praise for The Map of Lost Memories "In The Map of Lost Memories, Kim Fay draws us into a universe as exotic, intense, and historically detailed as the ancient artifacts her unforgettable heroine seeks. It's a deliciously unexpected journey: Indiana Jones meets Somerset Maugham meets Marguerite Duras."–Jennifer Cody Epstein, author of The Painter from Shanghai "A thrilling mix of adventure and personal discovery . . . [Kim] Fay crafts an intricate page-turner that will keep readers breathless and guessing."–Publishers Weekly "A ripping good tale . . . mysterious Asian locations . . . a driven young American heroine . . . an era no longer remembered but faded to romantic imagination . . . The Map of Lost Memories pulls the components together in a story that intrigues and rewards."–Lincoln Journal Star "Fay's extraordinary novel has everything great historical-adventure fiction should–a strikingly original setting, exhilarating plot twists, and a near-impossible quest."–Booklist (starred review)

Under summer skies, New York Times bestselling author Sherryl Woods evokes family, friendship and heartfelt emotion With her two younger sisters heading for the altar, will Samantha Castle exchange old dreams for new ones? Lately she'd rather be on the North Carolina coast with family than in New York with agents and actors. Though she vows not to let her teenage crush on Ethan Cole influence her decision, it's hard to ignore her feelings for the local war hero. Ethan lost more than his leg in Afghanistan. He lost his belief in love. Even being surrounded by couples intent on capturing happily-ever-after won't open this jaded doctor's heart. It's going to take a sexy, determined woman–one who won't take no for an answer.

Skylar's death came not at the end, after a long fulfilling existence, not in the middle, as a result of an untimely tragic event-but at the beginning, with her birth. As a final effort to save her dying unborn child, Skylar's pregnant mother, a witch, sacrificed herself by invoking a powerful spirit shade to inhabit Skylar's body, imbuing her with life. For twenty-three years, Skylar lived a life of oblivion, content with her simple job, loving adoptive mother and the monthly inconvenience of a full moon hangover after being sedated and caged when she changed into a wolf. It wasn't exciting but it was her life until one night, she woke up in a strange room in the middle of rural Illinois-bruised and with jumbled memories of her mother's death from a vampire attack. The Midwest pack comes to her rescue. Known for being more ruthless than altruistic, she doesn't know if she can trust them. But after an assassination attempt by a necromancer, an abduction attempt by a mercenary, and more aggressive and violent attacks by the vampires, she has no other choice but to accept their help. The Midwest pack quickly discover that Skylar is the host to a spirit shade, who gives her magical abilities, that make her as much of a danger as an asset and that she is the key to the vampires' plan to perform a ritual that will give them unrestricted power. Tension rises as the pack become divided between those who think her life is worth protecting as a potential ally and those who believe she is too dangerous to live. In the end, Skylar finds herself fighting for her life-a life that may be tragically taken too soon.
