In this engaging and accessible guide, Eugen Bacon explores writing speculative fiction as a creative practice, drawing from her own work, and the work of other writers and theorists, to interrogate its various subgenres. Through analysis of writers such as Stephen King, J.R.R. Tolkien and J. K. Rowling, this book scrutinises the characteristics of speculative fiction, considers the potential of writing cross genre and covers the challenges of targeting young adults. It connects critical and cultural theories to the practice of creative writing, examining how they might apply to the process of writing speculative fiction. Both practical and critical in its evaluative gaze, it also looks at e-publishing as a promising publishing medium for speculative fiction. This is essential reading for undergraduate and postgraduate students of creative writing, looking to develop a critical awareness of, and practical skills for, the writing of speculative fiction. It is also a valuable resource for creators, commentators and consumers of contemporary speculative fiction. In keeping with the spirit of the first edition, Teaching ESL Composition: Purpose, Process, and Practice, Second Edition presents pedagogical approaches to the teaching of ESL composition in the framework of current theoretical perspectives on second language writing processes, practices, and writers. The text as a whole moves from general themes to specific pedagogical concerns. A primary goal is to offer a synthesis of theory and practice in a rapidly evolving community of scholars and professionals. The focus is on providing apprentice teachers with practice activities that can be used to develop the complex skills involved in teaching second language writing. Although all topics are firmly grounded in reviews of relevant research, a distinguishing feature of this text is its array of hands-on, practical examples, materials, and tasks, which are presented in figures and in the main text. The synthesis of theory and research in a form that is accessible to preservice and in-service teachers enables readers to see the relevance of the field's knowledge base to their own present or future classroom settings and student writers. Each chapter includes: *Questions for Reflection--pre-reading questions that invite readers to consider their own prior experiences as students and writers and to anticipate how these insights might inform their own teaching practice; *Reflection and Review--follow-up questions that ask readers to examine and evaluate the theoretical information and practical suggestions provided in the main discussion; and *Application Activities--a range of hands-on practical exercises, such as evaluating and synthesizing published research, developing lesson plans, designing classroom activities, executing classroom tasks, writing commentary on sample student papers, and assessing student writing. The dual emphasis on theory and practice makes this text appropriate as a primary or supplementary text in courses focusing on second language writing theory, as well as practicum courses that emphasize or include second language writing instruction or literacy instruction more generally.
