The Commission has today published the EU's proposal for modernising the Energy Charter Treaty (ECT). Set up in the early 1990s to create a forum for East-West policy cooperation on energy, investment protection, trade and transit, the ECT now needs modernising. The EU is at the vanguard of the efforts to do so. The ECT's investment protection provisions have not been updated since the 1990s and are now outdated compared to the new standards of the EU's reformed approach on investment ...
