This book relates three years (1921-1924) in the life of Gilbert Bagnani, a young Italian archaeologist in Greece, based on his letters to his mother in Rome, at first as a non-partisan observer of, and later as an active participant in, some of the most tumultuous events in modern Greek history.

In a single day and night of misfortune, the island of Atlantis disappeared into the depths of the sea - Plato, 360 B.C. Ever since Plato first pondered the existence of Atlantis, the truth behind this infamous sunken city has captured the world. Atlantis and Other Lost Worlds is the most up-to-date and comprehensive investigation of this ancient island, written by the foremost authority on the subject Frank Joseph. Nowhere else will you find a more dramatic and convincing presentation of the evidence for its archaeological reality. The book uncovers the scientific genius of the ancients and the spiritual power of their mysterious religion. They are revealed as the inventors of a crystal technology to surpass our own, and the master builders of pyramidal monuments around the world. The cultural heritage of Atlantis in the civilizations of pharaonic Egypt, Bronze Age Europe, Maya Mexico and Inca Peru is clearly described. The doomed capital comes alive in a vivid recreation of its heyday of cultural splendor and imperial might. Inside these pages you will find the answers to many intriguing questions, including: • What is the most likely location of Atlantis? • How and when was Atlantis destroyed? • Has Japan's leading geologist found the sunken 'citadel' of Lemuria? • Have Russian oceanographers found the ruins of Atlantis? • What are the disturbing parallels between Atlantis and our time? Atlantis and Other Lost Worlds opens a new window on the ancient past, offering views of Atlantis and its kindred civilizations never seen before.

Drawing on ancient historical writings, the vast array of information gleaned in recent years from the study of Hellenistic coins, and startling archaeological evidence newly unearthed in Afghanistan, Frank L. Holt sets out to rediscover the ancient civilization of Bactria. In a gripping narrative informed by the author's deep knowledge of his subject, this book covers two centuries of Bactria's history, from its colonization by remnants of Alexander the Great's army to the kingdom's collapse at the time of a devastating series of nomadic invasions. Beginning with the few tantalizing traces left behind when the "empire of a thousand cities" vanished, Holt takes up that trail and follows the remarkable and sometimes perilous journey of rediscovery. Lost World of the Ancient King describes how a single bit of evidence—a Greek coin—launched a search that drew explorers to the region occupied by the tumultuous warring tribes of eighteenth- and nineteenth-century Afghanistan. Coin by coin, King by king, the history of Bactria was reconstructed using the emerging methodologies of numismatics. In the twentieth century, extraordinary ancient texts added to the evidence. Finally, one of the "thousand cities" was discovered and excavated, revealing an opulent palace, treasury, temple, and other buildings. Though these great discoveries soon fell victim to the Afghan political crisis that continues today, this book provides a thrilling chronicle of the search for one of the world's most enigmatic empires.
